

OUG Executive Board

- ❑ Welcome to the 2025 OLCF User Meeting!
- ❑ We hope you find this a useful and informative meeting.

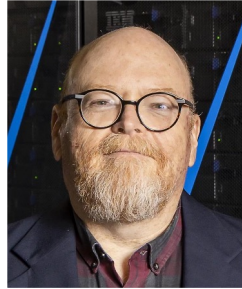

OUG Executive Board: What we do

- **The purpose of OUG is to provide advice and feedback to the OLCF on the current and future state of OLCF operations and services.**
 - ❑ OUG aims to promote the effective use of the HPC facilities at the OLCF by sharing information about experiences using the facility.
 - ❑ OUG also serves in an advisory capacity to help determine computational requirements and needs of the DOE Office of Science community.
- **The OUG Executive Board represents the OUG to the OLCF and serve as advocates for the user community.**

OUG Executive Board: What we do

- **The OUG Executive Board represents the OUG to the OLCF and serve as advocates for the user community.**
 - ❑ We are a volunteer group of individuals, with a broad computing background.
 - ❑ We use our own experience at OLCF, as well as feedback from colleagues, to advise OLCF on improvements to make for the user experience
 - ❑ running jobs, queues, filesystem, data, trainings, support, documentation, getting out information, user slack, preparing for the next system
 - ❑ We also carefully read the anonymous responses from the annual OLCF user survey to identify issues that we think can be addressed.
 - ❑ Thank you for participating in our first User Group Town Hall!
