

Michael's Tip Corner

- Deleted a file or accidentally screwed up a conda environment in your home directory?
 - Backups of `/ccs/proj/project_id` and `/ccs/home/username` exist!
 - Backups are accessible via the `.snapshot` hidden sub-directory within those locations
- Hourly backups for the past 24 hours
- Daily backups for the last 7 days
- Once-weekly backups

```
[[msandov1@login07.frontier ~]$ cd .snapshot
[[msandov1@login07.frontier .snapshot]$ ls
